APR 5 '82
PROCUREMENT SECTION
CURRENT SERIAL RECORDS

The National Poultry Improvement Plan became operative July 1, 1935, and the National Turkey Improvement Plan became operative September 25, 1943, with the approval of the Secretary of Agriculture. On December 3, 1971, the two Plans were combined under one title, "The National Poultry Improvement Plan," with separate provisions applicable to the different types of poultry.

The Plan operates through an appropriation made by Congress to the United States Department of Agriculture to be used in cooperation with the State authorities in the administration of regulations for the improvement of poultry, poultry products, and hatcheries. Authority for the administration of the Plan is now contained in the Department of Agriculture Organic Act of 1944, as amended (7 U.S.C. 429).

Provisions of the Plan are changed from time to time to conform with the development of the industry and with new information as it becomes available. These changes are based on recommendations made at the Biennial National Plan Conferences by official delegates representing participating breeders, hatcheries, and flockowners from all cooperating States. Current provisions of the Plan are described in a publication entitled "The National Poultry Improvement Plan and Auxiliary Provisions." The publication is available from Official State Agencies or on request to the National Poultry Improvement Plan, APHIS-VS, Building 265, BARC-East, Beltsville, Maryland 20705.

The Federal administration of the National Poultry Improvement Plan was transferred to the Animal and Plant Health Inspection Service-Veterinary Services (APHIS-VS) in 1979. It previously was administered under the Science and Education Administration-Agricultural Research (SEA-AR) a sister agency in the United States Department of Agriculture.

Trade names are mentioned in this publication solely to provide specific information. The mention of such names does not constitute a guarantee or warranty of the product.

National Poultry Improvement Plan: 1982 Directory of Participants Handling Waterfowl, Exhibition Poultry, and Game Birds.

NATIONAL POULTRY IMPROVEMENT PLAN
1982 DIRECTORY OF PARTICIPANTS HANDLING WATERFOWL EXHIBITION POULTRY, AND GAME BIRDS

Introduction

The hatcheries, dealers, and independent flocks listed in this publication are participating in the National Poultry Improvement Plan, according to reports submitted by the Official State Agencies. This list of participants is published for the purpose of developing greater efficiency in the operation of the Plan. Additional information regarding participants may be obtained by communicating with the Contact Representative of the Official State Agency of the respective State. The Contact Representative's name, address, and telephone number are given at the beginning of each State's listings in table 1.

This publication is revised each year because of frequent changes in participation and the need for inspectors, hatcherymen, dealers, and others to have up-to-date information. In addition, all Official State Agencies are notified of changes in participation which take place during the year.

The National Poultry Improvement Plan provisions, as contained in Title 9, Chapter I, Parts 145 and 147 of the Code of Federal Regulations, provide for recognition of different classes or types of fowl as follows: Subpart B--Egg-Type Chickens; Subpart C--Meat-Type Chickens; Subpart D-- Turkeys; and Subpart E--Waterfowl, Exhibition Poultry, and Game Birds. Participants handling egg and meat-type chickens as well as those handling turkeys are listed in a separate publication in this series.

Approval Numbers

In table 1 of this publication, the numerals preceding the name of the State, together with those preceding the name of each participant, constitute the participant's approval number. For example, the approval number for the first hatchery listed under Alabama is 64-164. The No. 64 represents the State of Alabama; No. 164, Alabama Quail Farm, 313 South Alice Street, Dothan 36301. These assigned numbers may be used by participants on shipping labels, certificates, invoices, and other documents for identification. They may also be used as reference numbers for shipments to member States of the European Economic Community.

Participant's Name and Address

Three types of participants are listed in this publication: those participating as a hatchery, as a dealer, or as an independent flock. For each State, the type of participant is given immediately above the first name in that category.

Hatching-Egg Capacity

Figures in this column refer to the hatching egg capacity of hatcheries, according to manufacturer's rating, including setting and hatching trays. Letter symbols in this column refer to products that dealers handle, as follows: E, hatching eggs; C, chicks. When an independent flock is listed, this column is left blank.

Products and Classification

All products handled by participants listed in this publication meet the specific requirements for a "U.S. Pullorum-Typhoid Clean" classification. The combined letter and numberal symbols shown in the fourth column identify the particular breed, strain, or trade name of the participant's products (see tables 2 and 3 in the appendix). Additional classifications for which these products qualify are stated in column five by MG, "U.S. Mycoplasma Gallisepticum Clean"; and App., "U.S. Approved". Those classified as Approved were found to conform with the criteria for the breed and strain represented.

Explanation for Table 1

Participants listed in table 1 represent hatcheries, dealers, or independent flocks handling waterfowl, exhibition poultry, or game birds. The products they handle have a letter symbol as follows:

a--White Leghorn
b--Rhode Island Red
c--Barred Plymouth Rock
d--White Plymouth Rock
e--New Hampshire
h--Cornish
n--Game
r--Other breeds and varieties
s--Egg Production Stocks
t--Meat Production Stocks
w--Bantams
x--Ducks
y--Geese
z--Other birds (wild or semi-wild type)

These letter symbols, together with accompanying numerals representing specific breed, strain, trade names, or other specific birds are fully explained in tables 2 and 3.
